ABOUT ME

Junior Software Developer with a strong foundation in web development and hands-on experience building real-world projects using HTML, CSS, JavaScript, React, and Node.js. Highly motivated, fast learner, and eager to grow professionally in a team environment. Interested in developing clean, responsive, and user-friendly applications while continuously improving technical and problem-solving skills.

TECHNICAL SKILLS

Frontend: HTML5, CSS3 | JavaScript (ES6+) | React.js (Vite) | Figma | Responsive Design

Backend (Junior Level) : Node.js | Express.js | REST APIs (basic) | Authentication (JWT – basic)

Database : PostgreSQL (basic) | Prisma ORM (basic)

Tools : Git & GitHub | Docker (basic) | Postman | Vercel

Languages : Albanian (Native) | English

EDUCATION

Bachelor of Computer Engineering
International Balkan University – Skopje
Status: Graduate
2021 - 2026

CERTIFICATION

Full-Stack Web Developer Program (6 Months)
PERPROGRAMERA
Date of Achievement: 22/09/2023

PROJECT EXPERIENCE

QendraERA – Educational & Rehabilitation Center Website
🌐 www.qendraera.com
- Designed and developed a responsive website for an education and child rehabilitation center
- Built structured pages for programs and services
- Implemented contact and inquiry forms
- Integrated an AI-based chatbot to help visitors navigate services
- Optimized layout for desktop and mobile devices

Technologies: HTML, CSS, JavaScrip

Keramika DOO – Corporate Website
🌐 www.keramikadoo.net
- Developed a professional multilingual website (Albanian, Serbian, English)
- Created service pages and product galleries for marble and granite installations
- Ensured responsive design for mobile and desktop users
- Implemented customer inquiry/contact forms

Technologies: HTML, CSS, JavaScript

AOD – Art of Difference (NFT Landing Platform)
🌐 https://aod-nft.vercel.app
- Developed a modern landing website for an NFT project for an international client
- Built responsive sections with smooth animations
- Presented NFT collections and project roadmap
- Focused on performance and clean layout

Technologies: HTML, CSS, JavaScript

PAGE 2

Saqipi Construction – Company Website
🌐 https://saqipiconstruction.vercel.app
- Built a modern company website using React.js
- Created reusable components and clear navigation
- Focused on responsive design and professional branding
- Deployed the application using Vercel

Technologies: React.js, JavaScript (ES6+), HTML5, CSS3, Vercel

Full-Stack Blog Platform (Personal / Academic Project)
🔗 github.com/suhejbmusliu/Full-Stack-Blog-Post
- Built a full-stack web application with public pages and secure admin panel
- Developed REST APIs using Node.js and Express
- Designed database schema using PostgreSQL and Prisma ORM
- Implemented authentication with JWT and basic role management
- Used Git and GitHub for version control

Status: In progress / Preparing for deployment
